SUBJECT: *Availability of The California Professional Growth Manual For Child Development Permits*

The California Professional Growth Manual For Child Development Permits is now available.

To renew the Child Development Assistant, Teacher, Master Teacher, Site Supervisor, and Program Director Permit the holder must complete 105 hours of professional growth during the five year validity period of the permit. (Reference: California Code of Regulations, Title 5 §80105, §80110, §80112, §80113, §80114, §80115) *The California Professional Growth Manual For Child Development Permits* describes the professional development renewal requirement for Child Development Permits and outlines the procedures for meeting that requirement. It emphasizes the importance of professional goal setting and offers a wide range of acceptable professional growth/development activities. Requirements for those wishing to serve as professional growth advisors are also outlined.

The manual is written in both English and Spanish and will be mailed to each individual who receives one of the new Child Development Permits requiring professional growth for renewal purposes.

Institutions of higher education, county offices of education, school districts, and child development centers may wish to order copies of this manual for distribution to permit candidates or staff members. Orders may be placed either by mail, e-mail, or phone.
